

## REACH STATEMENT

The European Regulation EC/1907/2006 REACH entered into force 1. June 2007 and the pre-registration phase has ended.

ITW Chemical Products Scandinavia is aware of the obligation of REACH and is working continuously to come up to the claim.

We have contacted our supplier to assure the substances contained in products/ substances supplied from ITW Chemical Products Scandinavia will be/ or is (Pre)registered.

To our best knowledge none of the products/substances supplied from ITW Chemical Products Scandinavia will be reformulated or withdrawn due to the requirements of REACH. However we note that events beyond our control such as ECHA or supplier actions may affect continuous supply of products.

To our best knowledge none of the products/substances supplied from ITW Chemical Products Scandinavia contains substances on the SVHC Candidate list. Released 28.10.2008 [http://echa.europa.eu/chem\\_data/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/candidate_list_table_en.asp)

One of the obligations in REACH is the communication through the supply chain. We are continuous in contact with our suppliers according to the use of the substances in products/ substances supplied from ITW Chemical Products Scandinavia. As the substances is registered new safety and environmental information will be supplied through safety data sheets and exposure scenarios.

The customers of ITW Chemicals Products Scandinavia are also obligated to inform us about their use of ITW products if they are used for purposes and conditions other than stated on labels and technical data sheets.
