

Technical Datasheet

EL-K80 Contact Cleaner

Description

EL-K80 is a grease dissolving cleaner, that is gentle to synthetic materials, plastics and elastomers.

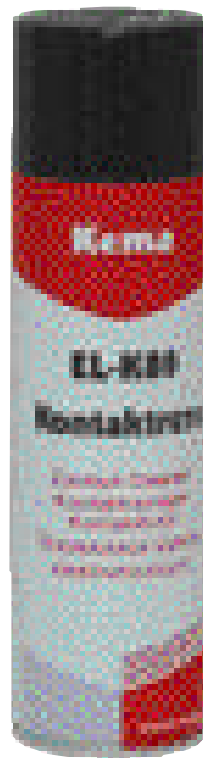

EL-K80 removes, without risks old grease oil, dust and foreign matters on all mechanical and electronic equipment such as contacts, precisionautomatics, mechanical components, plugs, printed circuits, telephone relays, computer- and teletechnique etc. Does not cause changes in the frequency or the capacity.

EL-K80 is based on extremely pure and chemically stable compounds.

NOTE: Break the circuit and do not close the circuit before the cleaner has evaporated completely.

Properties

- especially for electronic equipment
- gentle to synthetic materials, plastics and elastomers
- effektive degreasing effect
- leaves no remnants

Also available in 5, 25 and 200 litres.

INFORMATION

EL-K80 Contact Cleaner

Technical and physical data

Partnumber	11502	11505
Packing	200 ml spraycan	500 ml spraycan
Contents	160 ml	400 ml
Weight	117 g	292 g
Propellant	CO ₂	
Colour	transparent	
Base	alcohols/hydrocarbons	
Flashpoint (conc.)	<13°C	
Density at 20°C	0,660 g/cm ³	
Solid-state component	none	
Emptying rate	1,4 g/sec
