

Technical Datasheet

NEVER-SEEZ White Foodgrade with PTFE

Description

Meets FDA and USDA requirements for incidental food contact. Fortified with high load carrying solid lubricants, it lubricates and protects bearings, gears and other moving parts exposed to high temperatures up to 475°F and wash downs. The unique dispersion of FDA authorized PTFE provides additional lubricity especially where a thin film of lubricant is desirable. Never-Seez

White Food Grade with PTFE is virtually odorless, colorless, and tasteless. It is a "multi-purpose" lubricant for varied services within a food handling plant.

PRODUCT APPLICATIONS:

- Nuts, bolts, screws
- Pipe fittings
- Stainless steel fittings
- Valve stems and assemblies
- Pump gears
- Chain drives
- Gaskets
- Press fit assemblies
- Conveyor and oven bearings
- Packaging Machinery
- Worm gears
- Slow speed or highly loaded bearings

<500 RPM

INFORMATION

NEVER-SEEZ White Foodgrade with PTFE

Technical and physical data

Part number	1230	1231	1232 / 9929
Packing	Plastic can	cartridge	buckets
Content	400 g	400 ml	40 kg / 20 kg
Temperature resistance	-15°C to 246°C (5° to 475°F)		
Particle size	2 mil. maximum (50 microns)		
Density (g/cm ³)	0,9 - 1,0		
ASTM D-217 Worked penetration	275-325		
ASTM D-92 Flash point	250°C (482°F)		
ASTM D-566 Dropping point	227°C (440°F)		

WHITE FOOD GRADE WITH PTFE

Multi-purpose lubricant composed entirely of ingredients approved by the FDA for incidental food contact. It is virtually odorless, tasteless and colorless.

- Bakery
- Brewery
- Cosmetic packager
- Dairy food processor
- Fast food restaurant
- Fish processor
- Food handling and processing
- Ice cream producer
- Meat packing
- Pet food manufacturer
- Pharmaceutical
- Poultry processing
- Soft drink bottler
